- All Valutec certified point-of-sale systems will process the Valutec gift card programs and gift transactions. The only POS systems that recognize the Valutec loyalty & rewards card program are Micros, PC Charge and Positouch. Realtime POS is also certified for Loyalty card program use.
- Split tender settlement functionality can be activated by Valutec at the merchant account level.
- Merchants should contact their POS dealer or service provider to ensure that their POS system version is Valutec ready.
